

WEEK 2: September 4th

Recycling 101

Nature Center

Ages 10 - 14

Did you know we have set up a new recycling center at the Nature Center? We are collecting lots of different types of recyclables, even some items that aren't easily recyclable in our area! We will talk about the importance of recycling, how easy it can be, and other ways to live a more sustainably conscience life! Students will learn about compost and even meet our working worms! We will also be creating some useful items and art from materials that would normally go to the landfill.

We now proudly collect for TERRACYCLE!
Want to know more? – Visit our Recycling Corner!

A TerraCycle drop-off station featuring a large sign with the TerraCycle logo and the text "DROPOFF WASTE HERE!". The sign also includes logos for Febreze and Solo, and images of various recyclable items like coffee filters, pens, and paper.

Have You Seen Our New Recycling Corner???

A recycling corner with several bins (blue, black, green) and educational posters on the wall. One poster is titled "WORMS AT WORK!" and another is titled "NEW! TERRACYCLE". The corner is well-lit and organized.
