

WEEK 6: October 2nd

Rocks, Minerals, and Erosion! Oh My!

Nature Center

Ages 6 - 9

This class is going to rock! Students will learn all about rocks and minerals, what makes them different, and how they form. We will also talk about the important role they play in our everyday lives. This class will include LOTS of hands-on activities and a scavenger hunt hike to find examples of erosion here on the Greenway.
