

Photography Policy Effective August 1, 2016

The Anne Springs Close Greenway (the “Greenway”) offers a variety of photography options with respect to landscape and architecture on its 2,000 acres. The Greenway is private property and any photography must comply with this Policy. The need to protect the Greenway and high volume of photography requests requires us to manage the process and to institute this Policy. For the purpose of this Policy, photography includes videography.

Professional photographers are defined as persons being compensated (including barter) for individual or family photography services. Professional photographers are not defined by primary sources of income.

Commercial photographers are those who are engaged in the sale or distribution of photography or engaged by a commercial entity for the purposes of photography services. Such services that result in the sale of photographs, product advertisements, marketing collateral or some other form of public promotional campaign must be contracted separately. Rates reflected herein are **not** applicable to commercial photography and videography.

Amateur photographers are those who do not exchange money, compensation or barter for photography services and who do not use props such as furniture and professional equipment such as special flash, lighting or reflective disks. Amateur photographers do not sell, exchange or transfer photographs for any compensation. Amateur photographers may take photos in areas that are open to the public but shall not infringe upon private events or areas being used by professional photographers.
